Regarding 18-184

My name is Terry Wood, and I am the station licensee of WTWZ 1120 AM in Clinton, Mississippi.

As a long-time AM broadcaster, I would like to thank the FCC for all of its work in AM Revitalization. My FM translator on 102.5 FM has been a lifeline, and has breathed new life into my station.

Independent Class A FM stations all over the country are looking for a similar type of lifeline, which is why I fully support the FM Class C4 and 73.215 proposals filed by MMTC and SSR Communications.

Although my station will not benefit directly from this proposal, I recognize that many station owners are in desperate need of this power upgrade. As was the case in my situation, I ask that the FCC grant relief to my fellow small broadcasters through full implementation of the MB 18-184 proceeding.

Please adopt this proposal without delay.

Sincerely,

Terry Wood

WTWZ 1120 AM
